RE: Stratton Flats

Attn: Marty

The above mentioned development is within the certified service area of Holy Cross Energy.

Holy Cross Energy has adequate power supply to provide electric power to the development, subject to tariffs, rules and regulations on file. Any power line enlargements, relocations, and new extensions necessary to deliver adequate power to and within the development will be undertaken by Holy Cross Energy upon completion of appropriate contractual agreements and subject to necessary governmental approvals.

Please advise when you wish to proceed with the development of the electric system for this project

Sincerely,
HOLY CROSS ENERGY

RE: Stratton Flats Subdivision – Gypsum, CO

Dear Marty:

The above mentioned development is within the certificated service area of Black Hills Energy.

Black Hills Energy has existing natural gas facilities located on or near the above mentioned project. At this time it appears that these existing facilities have adequate capacity to provide natural gas service to your project, subject to the tariffs, rules and regulations on file. Any upgrading of our facilities necessary to deliver adequate service to and within the development will be undertaken by Black Hills Energy upon completion of appropriate contractual agreements and subject to necessary governmental approvals.

Please contact us with any questions regarding this project, and with a timeline of when you would like to proceed with your project.

Sincerely,

Matt Raper | Construction Coordinator | Black Hills Energy |

RE: Stratton Flats

To whom it may concern:

Your request for facilities to Stratton Flats is within CenturyLink's serving area and will be provided in accordance with all the rates and tariffs set forth by the Colorado Public Utilities Commission.

Connections to CenturyLink facilities are contingent upon the customer meeting all the requirements of the Utilities tariffs that are in effect for each requested utility service at the time the application for service is made by the customer and formally accepted by CenturyLink. Connection requirements may include provisions for necessary line extensions and/or other system improvements, and payment of all applicable system development charges, recovery agreement charges and other fees or charges applicable to the requested service.

Although CenturyLink diligently seeks to expand its facilities as necessary to meet anticipated growth, CenturyLink services are provided to eligible customers at the time of connection to the facilities on a "first come, first served" basis after acceptance of the customer's application as described above. In certain instances, our facilities and capacities may be limited. Accordingly, no specific allocations or amounts of CenturyLink facilities or supplies are reserved for service to the subject property, and no commitments are made as to the availability of CenturyLink service at future times.

Sincerely,

Jason Sharpe
